ANNEX to AENOR RP E19.01. Certificate of conformity

Recyclability of paper, cardboard and cellulosic derivatives

The UBIS KRAFT 700 and KRAFT 7000 self adhesive paper tapes are both RECYCLABLE or REPULPABLE adhesive tapes. The AENOR RP E19.01 certificate confirms that these tape references, contain a total recyclable content of at least 65% in weight.

The testing procedure shows that the rejected part of the tape mainly consists of the adhesive layer and small fibrous paper pieces. The percentage of the recovered or repulped paper fibres is above 90%, which indicates that the tape is designed to be easily separated and recycled with minimal waste generated.

The recycled or repulped paper fibers, meet the definition of an associated component (fibrous material) that can be separated from the waste stream by available processes and programs and it can be collected, processed and returned for use as a raw material or product.

In Hernani the 4th of May of 2023,
